WORK EXPERIENCES

Since
August
2017

DS AUTOMOBILES (PSA group) | Paris (MOLB contractor)

Interior automotive designer for advanced / production models, participating in the DS9 (released in 2020) , next DS4 (coming soon) and next SUV range projects :

- Concept strategy, trends studies, innovative experiences and architecture researches.
- Create and sketch proposals for the new brand design language with strong styling directions, integrating new technologies and functions.
- Work on a range of components from overall interior to details (steering wheels, seats, clusters, airvents, screens integrations, speakers..)
- Work closely with CAD digital modellers, physical sculptors, prototypists, leather workshop craftsmans and Color and Trim teams.
- In charge of follow-ups for the technical development of projects I designed with engineers, physical/digital ergonomists and suppliers.

April 2016
-
July 2017

- Creative interior proposals sketching from overall interior to detail.
- Full cockpit proposal selected by Dongfeng.
- Lead CAD digital modelling team and work on the production development with Dongfeng design and engineering teams in Shanghai and Wuhan.
- Marketing researches for customers feedback in China for design improvement.
- Follow and lead full size scale clay model and details prototyping in Shanghai.

June -
Nov. 2015

Interior design intern | RENAULT Design India, Mumbai

Interior design for the *Kwid Climber* showcar

March -
July 2013

Interior design intern | RENAULT Idesign lab, Paris

Interior detail design / components.

EDUCATION

2010-2015

Graduated in industrial design | Strate school of design, Paris

Majoring in Transportation; Renault, Vedecom and Terex Sponsored projects

2013

Fall semester | College for Creative Studies, Detroit, USA

Automotive design classes; Harley Davidson sponsored project

2009

High school diploma, Literature | Michelet, Montauban

SKILLS AND LANGUAGES

English - fluent (TOEIC 950) | **French** - Native speaker | **Italian** - Beginner

IT - Photoshop, Illustrator, InDesign, Alias, Solidworks, Rhinoceros, Keyshot.

Manual - Sketching, Drawing, painting, sculpting, Clay Modeling, tape drawing, prototyping, 3D printing

Others - Aeronautics Initiation Certificate (BIA)

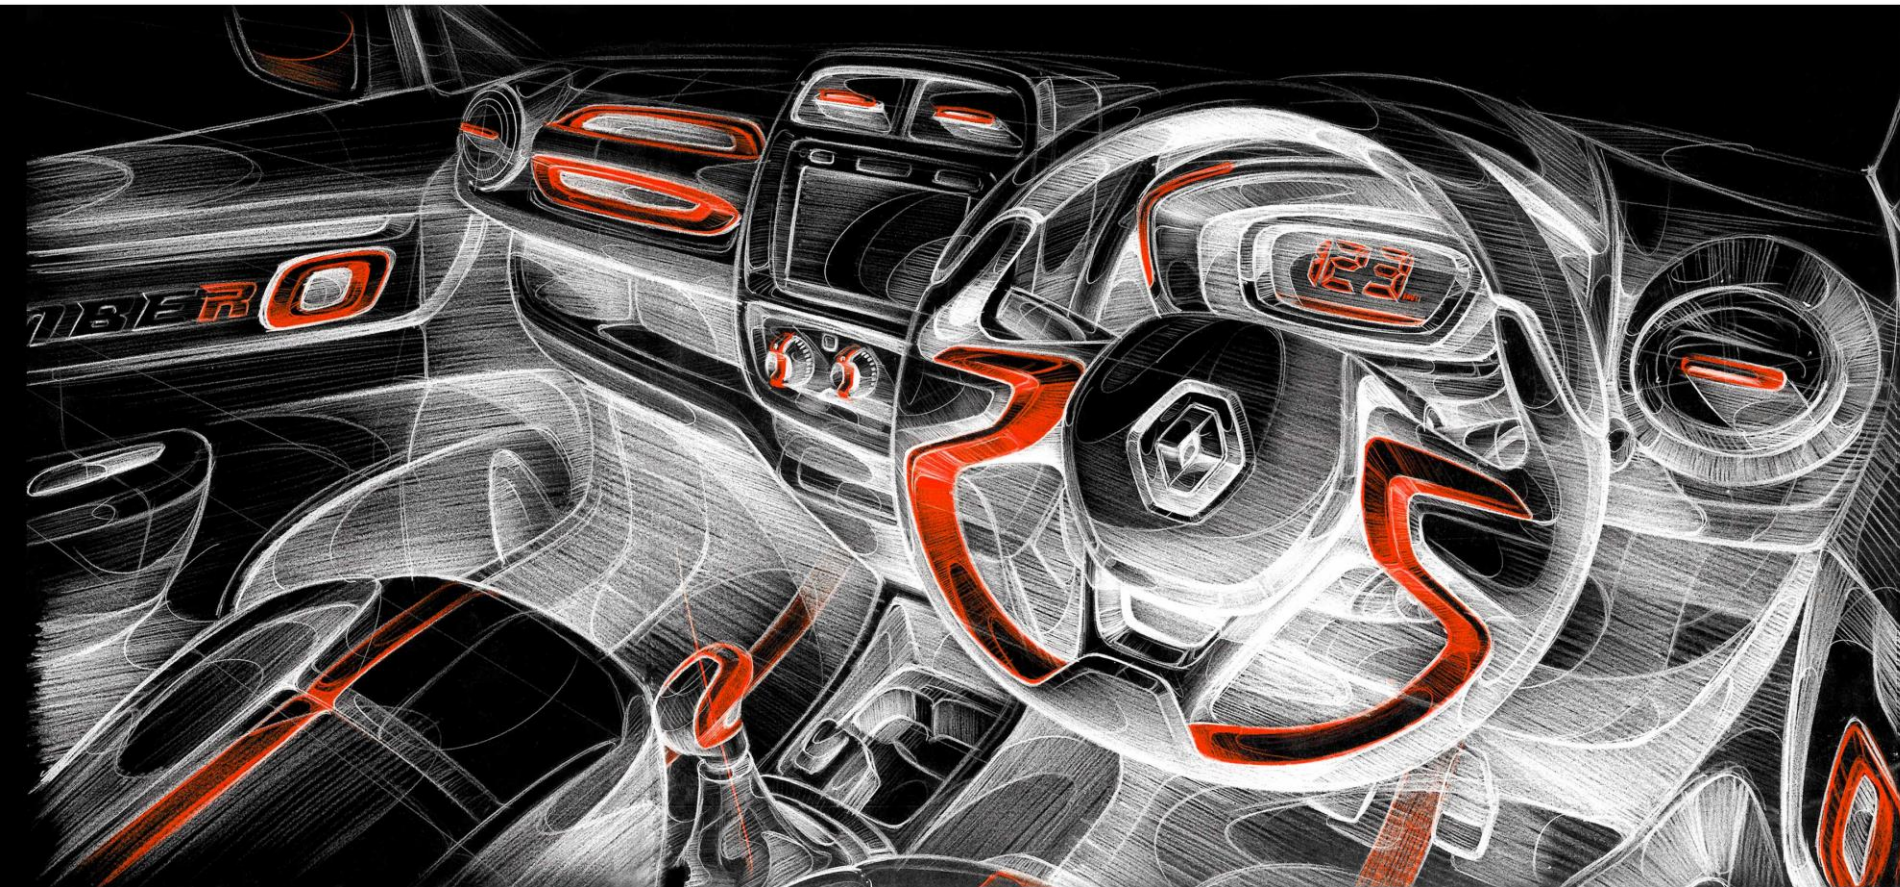

INTERESTS

Sports - Track and road cycling, running skiing, tennis, motorbikes, aircrafts.

DS9

DS9 is an **elegant premium** saloon bringing **first class comfort** to the passengers.

The **rear central armrest** plays the **center role** of the on-board individual comfort.

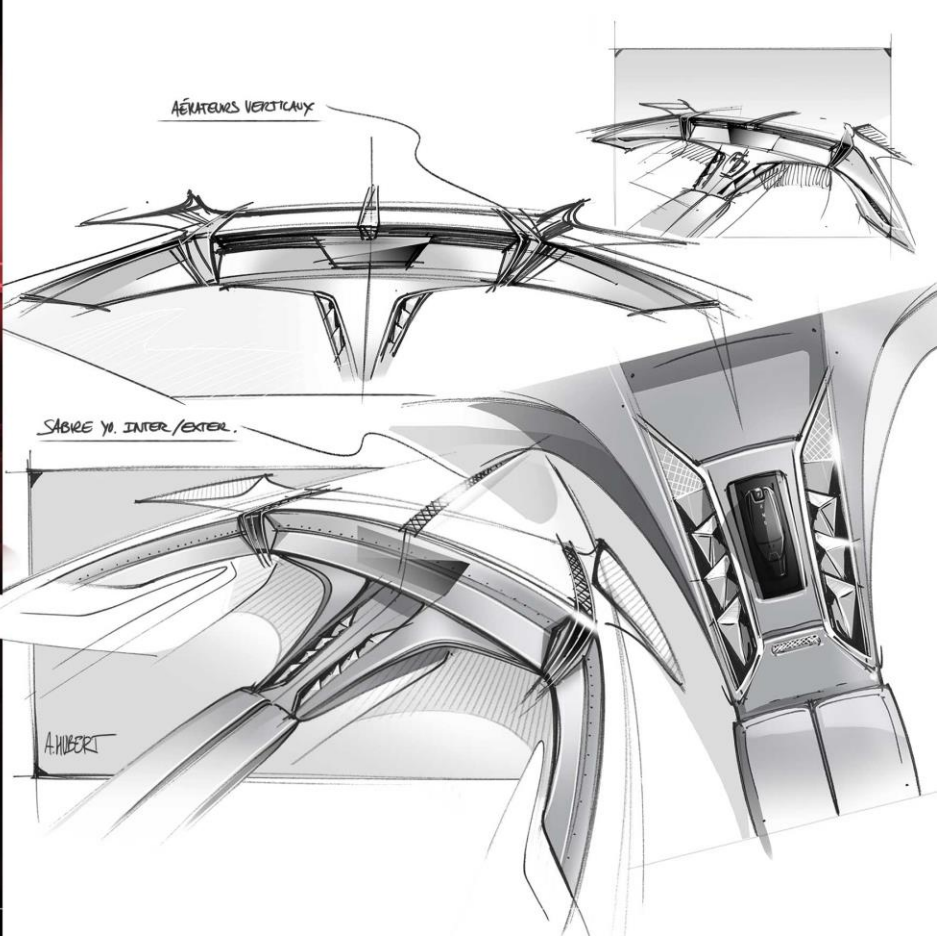

The **all leather wrapped cockpit** enhances the **workmanship and sophisticated** feeling.

Designed in **2017/2018**, revealed in **2020**

Full design of the **2nd row premium central armrest**. The most upper segment rear center console made in PSA.

Participating in the design refinement of some areas of the cockpit.

Official **press sketches** for the overall interior.
